Hello Ben, Me too have been inspired by Manang Perla... she had been my Advisor, mentor, and most of the time, I have to consult her before I make decisions regarding the activities of the Rosales Association of Southern California... in which she established years ago. Being a non-Rosalenean did not really bothered me when they choosed me to be the President... and still the President up to the present time... Manang Perla was the one who insists that I become a Honorary Member, which makes me then qualified to be the President. I made it a point that I will take care of the Rosales Association of Southern California ever since... and will take care of the memories of Manang Perla regarding the Association. Her 1st Death Anniversary was so meaningful to me and everyone, remembering her not only as Fellow Rosalenean, but most of all like a Real Older Sister of mine. I thank God of knowing her and her Family... and to be like a member of the Family. Thank you, Romy & Chit [Joomla SEO powered by JoomSEF](#)
