I can't imagine how the Arroyo's can sleep at night knowing that millions of Filipinos are starving and dying to have food on the table. Mrs. Arroyo, please help our fellow Filipinos survive this nightmare. When Erap was deposed, I rejoiced, that a person of your moral character took over. I regret my wholehearted support and prayers for you and your family. Much worse, you hired most of the military people who continue to perpetrate hideous crimes against our people. Much worse, you hire people who can;t even articulate a clear word of English on camera (those accents embarrasses me when I hear them speak). Please return monies to the Filipino people.
