I really wonder why "Legislators" should be involved in these sort of Projects like road widening, bridge repairs etc. All I know is that their JOB is to WRITE and PASS Laws. Why are they allotted with these "pork-barrels" for the use of projects concerning Executive responsibilities?

Politics in the Philippines is wretched, but I don't expect it to get fixed anyway. I mean not at all with these dirty politicians. [Joomla SEO powered by JoomSEF](#)
