CC on this post has been already forwarded to the NBI and we already found the computer who is the person stabbing your back. Capt. Irene. We advice all the lawyer what is the right thing to do, since this jealous people are everywhere, and we already informed and advice your adviser what to do. Please never entertain people that are low ! they can't even pronounce your name properly and telling that they know you personally. We congratulate all your achievements and whoever you are with all the time we learned to get to know you, we admire your skills, your talent and your possitive energy. we all know you have no time to read this but from all the way here to where we are we are all working to gather all the right information to capture this person, who can do anytihng but being jealous, he or she might have been so disperate from her life , maybe also dreaming to be a PILOT or a FLIGHT attendant, so cheap minds, to pay attention too. The moment we trace her we will do what we did to the last woman your secretary who did the same thing to you and put her in jail her at our department ! thanks for the right job Capt. Keep it up what you do for MINDORO people ! we all admire you and continue growing and more success to your project and to your life. We advice you not to welcome any cheap minds, because most of them are truly losers !!! [Joomla SEO powered by JoomSEF](#)
