LOLO Bobby: At eighteen, this ABER Filipino is still a virgin? Grabe naman. Parang si Virgin Mary. Is he also related to Abnoy (Abnormal Noynoy), who from what I understand is still virgin daw at 50. And what a way to test a guy for his "fidelity"? I would never had passed that test. I would be humping that sexy, flirtatious cousin of the girl in no time. Forgive me for saying this, but that Aber Filipino is no Valentino. He's a dork. And that "uncle," well, he's rat. LOL.
