This is good reporting, let us have more of this. I hope this case of misuse of funds be further investigated. It will eventually be exposed due to it's federal funding. An immediate report should be submitted to various government agencies, to do otherwise is the height of injustice. Don't forget that the term of the prescription period starts on date of discovery. They should be investigated by the Atty. General of California, ASAP! Anybody can report to this office. If this proves to be true, it is a federal offense and punishable by at least 6 years imprisonment cause it also involves fraud. Tnx, RV [Joomla SEO powered by JoomSEF](#)
