This is a useless article. I want to know the principles of Tani, not that she is Filipino. Will she support the death penalty, will she support props like 187 and will she support a law like AZ 1070? Does she believe in the 3 strikes rule and does she coddle criminals or sock it to them? I DON'T CARE where her parents came from. I just want her to be an American citizen who believes in the U.S. constitution and will support the laws of our nation and state. What dribble when you proclaim, "A candidate for this position for a Filipino American or and Asian American may not be available again in our lifetime." Who cares? All I care about is the content of her character. [Joomla SEO powered by JoomSEF](#)
