Dear Bobby You articles are like prophetic gems coming out from the cosmic realms of those who still believe the hope that Sorsogon can still be shaped up to its progressive destiny. It will take overseas Sorsoganons to reclaim our aspirations to bring Sorsogon up to speed with its neighboring provinces. In 2 or 3 years, I will retire come home to rally both the local and overseas Mellas in rebuilding our beloved Magallanes to what it can become. Like the whole province of Sorsogon, the revenue of Magallanes is more than enough to move it forward with your green revolution ideas reinforced by sustainable energy initiatives able to run tourist and cottage orientated industries in the future. Let me join your bully pulpit when you finally run for the provincial office. Keep in touch. Bobby Lastica Bicol Communities League, Inc. Sydney Australia [Joomla SEO powered by JoomSEF](#)
