The response to the latest Israel atrocity is global and powerful. Let us make this a defining movement in the Palestinian peoples' struggle for justice and self-determination.

Israel has maintained a blockade on Gaza – an impoverished area home to 1.6 million Palestinians – for more than three years. The attack on the Gaza Freedom Flotilla was an act of piracy and a war crime carried out in international waters.

Attempting to turn reality upside-down, the Israeli military is now posing as the “victim” in this incident. Israel is only able to carry out massacres like this and the ongoing oppression of the Palestinian people due to the huge military, economic and diplomatic support it receives from the U.S. government.

June 5 will mark the 43rd anniversary of the 1967 war, when Israel conquered the West Bank

and  
Gaza  
, along with  
Syria  
's  
Golan Heights  
, all areas that  
Israel  
continues to occupy to this day.
