I was told BY THE NYPD THAT THEY HAD BEEN MICROCHIPPED!...".FOR OUR OWN GOOD". When I tried to verify this with ONE POLICE PLAZA, I was told, "only dogs are chipped", an obvious lie. Given that the human organism can be manipulated through the chip we have a potential S.S.force (over and above that their superiors are encouraging tasing.....) And as for IBM saying that chips could be embedded in firearms to make them easier to track....let's not forget who IBM is...they are Nazis. They were instrumental in developing the 'punchcard technology' for processing innocents during W.W.2. NOW THEY ARE COMING FOR YOU. [Joomla SEO powered by JoomSEF](#)
